Special Instructions _____

Please print and return this order form to the address above with an enclosed check for the amount due payable to the LaFayette Fire Dept. Inc. Signs are installed when our members have time available. We typically wait till we have several signs to install. If you want your sign installed sooner, you can contact us to pick up your sign and post if needed. Due to weather conditions we typically do not do any installations from November to Mid March. Signs must be in front of the address location, not necessarily at the mailbox, as the intent is for emergency personnel to be able to find your location not the mail carrier.
